

# Maritime Pine Bark

20-55mm

A premium pine bark with large particle size makes this ideal for the most prestigious jobs where a high quality long lasting finish is required.

Produces chipped bark with 90% of particles in the range of 20-50mm.

Contains minimal white wood, normally within 5% (by volume basis).

Moisture content in the region of 45-55% (green weight basis) on delivery.

The weight/volume ratio (bulk density) is normally in the range of 210-260 Kg/m<sup>3</sup>.

This product is completely free of methyl bromide contamination.

Free of all foreign matter.

## **Application Rates**

We recommend that all our mulches are laid at a depth of between 50 & 100mm to obtain the best results. Allowing 10% for settlement

Available in Bulk Loose
