

Ornamental Chip Bark

5-35mm & 15-65mm

This is our top of the range spruce bark ideal for providing a professional finish on prestigious jobs. The large particle size also provides longevity.

It is produced from mixed conifer bark with a high percentage of spruce, and is mid-brown in colour with a slight, pleasant odour.

15 - 65mm - Produces chipped bark with 90% of particles in the range of 20 - 40mm.

5 - 35mm - Produces chipped bark with 90% of particles in the range of 8 - 30mm.

Contains minimal white wood, normally within 10% (by volume basis).

Moisture content in the region of 50 - 60% (green weight basis) on delivery.

The weight/volume ratio (bulk density) is normally in the range of 200 - 300 Kg/m³

The pH range is between 4.5 and 5.5

Manufactured from materials sourced 100% within the British Isles, thus completely free of any trace of methyl bromide contamination.

Hard wearing, long lasting and free from pests, pathogens and weed seeds.

Free of all foreign matter so as to comply with current legislation and our own strict standards.

Application Rates

We recommend that all our mulches are laid at a depth of between 50 & 100mm to obtain the best results. Allowing 10% for settlement.

Available in Bulk Loose
