

Pine Ornamental Chipped Bark

5-35mm

This bark is a high quality pine mixed with conifer bark, with a large particle size making it ideal on windy sites where long lasting mulch is required. It is red brown in colour with a rich pine odour.

Minimal fine content.

Chipped bark with a nominal particle size range of 5-35mm.

Contains minimal white wood, normally within 5% (by volume basis).

Bulk density normally 200 - 250kg/m³.

Ph between 4.5 - 5.5.

Manufactured from European bark predominately pine, Douglas fir and larch bark.

Hard wearing, long lasting and free from pests, pathogens and weed seeds.

Free of all foreign matter so as to comply with current legislation and our own strict standards.

Application Rates

We recommend that all our mulches are laid at a depth of between 50 & 100mm to obtain the best results. Allowing 10% for settlement

Available in Bulk Loose
